

PARAGLIDING ACCESS AND PRICING

The Ranch is happy to be able to welcome and host paragliders in the pursuit of their non-consumptive and ecologically mindful sport. Their activity offers us at The High Lonesome Ranch the opportunity to share what we're doing in our enthusiasm for The Land with like-minded people through flying and camping.

The landscape offers amazing flying opportunities for early morning thermal, record setting cross country flights, and evening glassoffs. The site requires a high degree of technical knowledge and experience. Pilots must have a current USHPA license. P3 pilots and higher must have either flown at the Fly in or received a site intro from an approved site Mentor (Brian Greeson or Lukas Hill). P2 and lower pilots are welcome with licensed instructors present.
